

# JBC

[www.jbctools.com](http://www.jbctools.com)

## *Excellence*

The new Generation of JBC

## A global organization at your service

JBC is a global company with a distributor network spanning 5 continents that guarantees a solid commercial organization with quick and efficient service.

## The power of experience

More than 80 years of experience have placed JBC at the technological forefront of tools for soldering and rework operations in electronics. Innovation, efficiency and reliability are the key features of a wide range of products which have been designed to satisfy the most demanding requirements of professionals.

## High technology, superior quality

Product perfection is one of the main objectives of JBC's improvement and development program. The R&D department has created the most innovative soldering technologies, which JBC is proud to present in this catalogue.

## ESD safe

All JBC products comply with CE standards and EDS recommendations.

JBC Soldering SL reserves the right to update, modify or delete any information without previous notice.

# The new generation of JBC

The Excellence range of JBC has become the smartest choice for professionals in electronics

## More functions, better quality in soldering

The incorporation of the new functions and the possibility to modify more parameters means you can get the best quality results in the soldering joints with graphics in real time, partial counters, tool port monitoring...

## From customizing to total control

Our soldering and rework equipment has a great capacity to suit your needs. You can manage and monitor groups of stations remotely thanks to their multiple connections: USB, LAN, Robot and peripheral modules. It can also store settings which can be easily exported.

## The best support for your work

Use our innovative applications to complement your work such as the microscope, file storage, unit converter, calculator, video and even an comprehensive station help to assist you at anytime.

Excellence  
range

See for yourself all the benefits

Quick temperature change

See % power for each port

Tool in use

Consult the comprehensive help for each parameter

Display different ports in use

**Station**  
Adjust station parameters and personalize the new functions

**Tools**  
Set different tools for each port and

**Counters**  
Register total and partial hours for each port: work, sleep, hibernation hours,...

**Peripherals**  
Join station ports with pedals and modules: desoldering pump, nitrogen flow regulator, fume extractor,...

**Graphs**  
Monitor your work processes with power and temperature data in real time

**Reset**  
You can reset the station parameters to default values

## Adjustable TFT screen

2.8" color display with capacitive keyboard facilitates user interaction

**Intuitive Menu**  
Easy browsing for working with total comfort

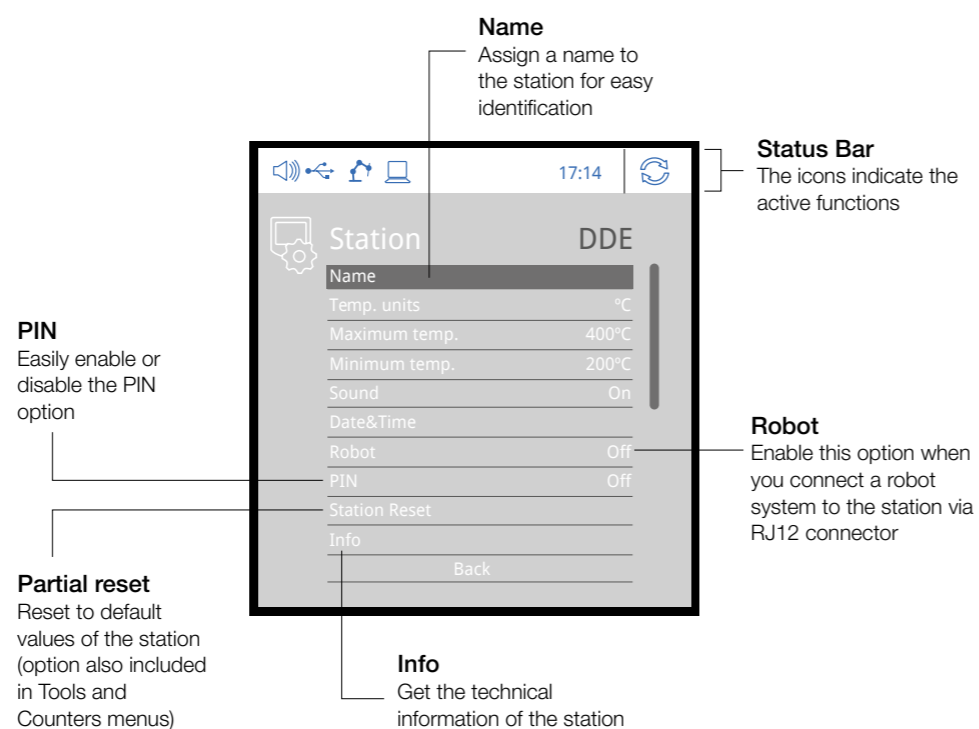

**Quick access**  
The new interface provides quick access to all parameters

**JBC**  
www.jbctools.com

## Station customizable

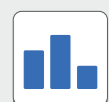

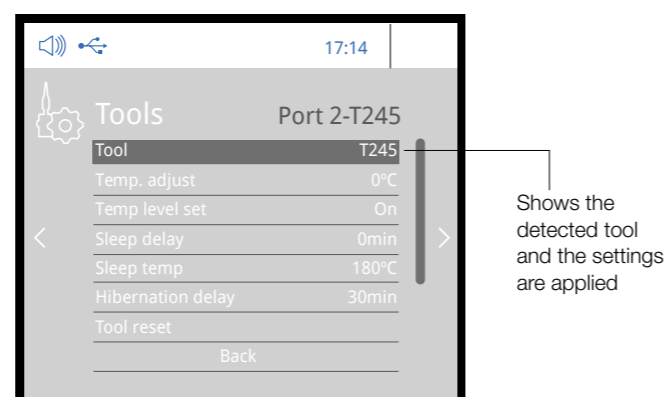

Set the station parameters and personalize the new functions

## Tool Preset

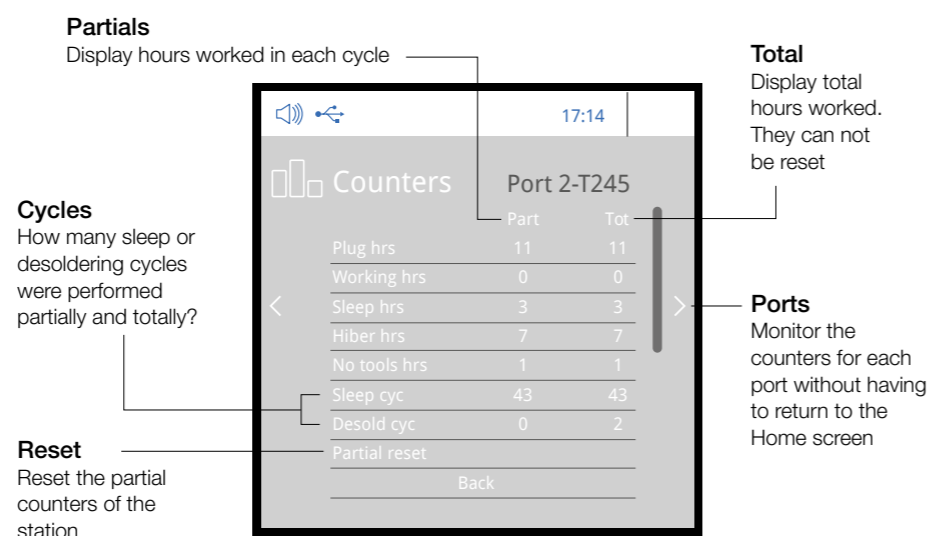

Set the tool before connecting

The stored settings are activated only when the station detects a tool is connected

## Partial Counters

Display the hours worked in each cycle

**JBC**

www.jbctools.com

## Peripherals

Multiple possibilities for greater production

## Join station ports with 1 module and 1 pedal

Select the most appropriate peripherals according to your soldering or desoldering needs

**Electric Desoldering Module**  
Ref. **MSE**

**Pneumatic Desoldering Module**  
Ref. **MVE**

**Nitrogen Flow Regulator**  
Ref. **MNE**

**Fume Extractor Switch**  
Ref. **FSE**

**Pedal**  
Ref. **P-005**

Now with the Excellence stations you can work with up to 4 desoldering irons

Set the working mode of the pedal to activate a module or the Sleep feature of the tool

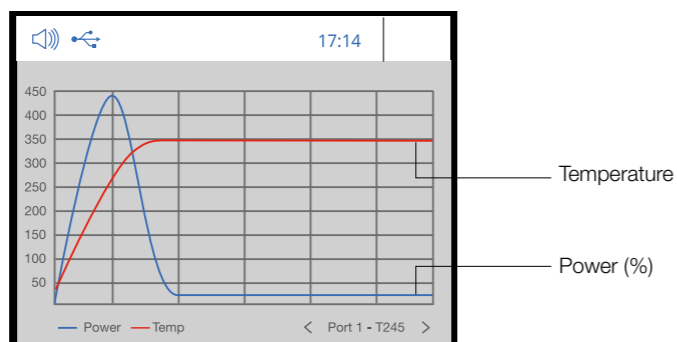

## Graphics

Monitor your work with power and temperature data in real time

Analyze graphics from your PC

## Analysis of the soldering process

It helps you select the best tip for your work and see the quality of each soldering joint

### Export graphics

Insert a USB flash drive into the USB-A connector **before starting the graphics** and data will be copied in CSV format.

Download the Robot Communication Protocol from [www.jbctools.com/jbcsoftware-menu-115.html](http://www.jbctools.com/jbcsoftware-menu-115.html)

Connection  
RS-232 / RS-485

## Robots

Automate the soldering process and control the settings from your Robot

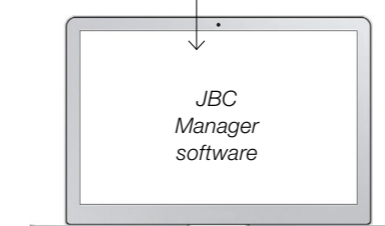

For very repetitive jobs requiring precision

## Remote Work Management

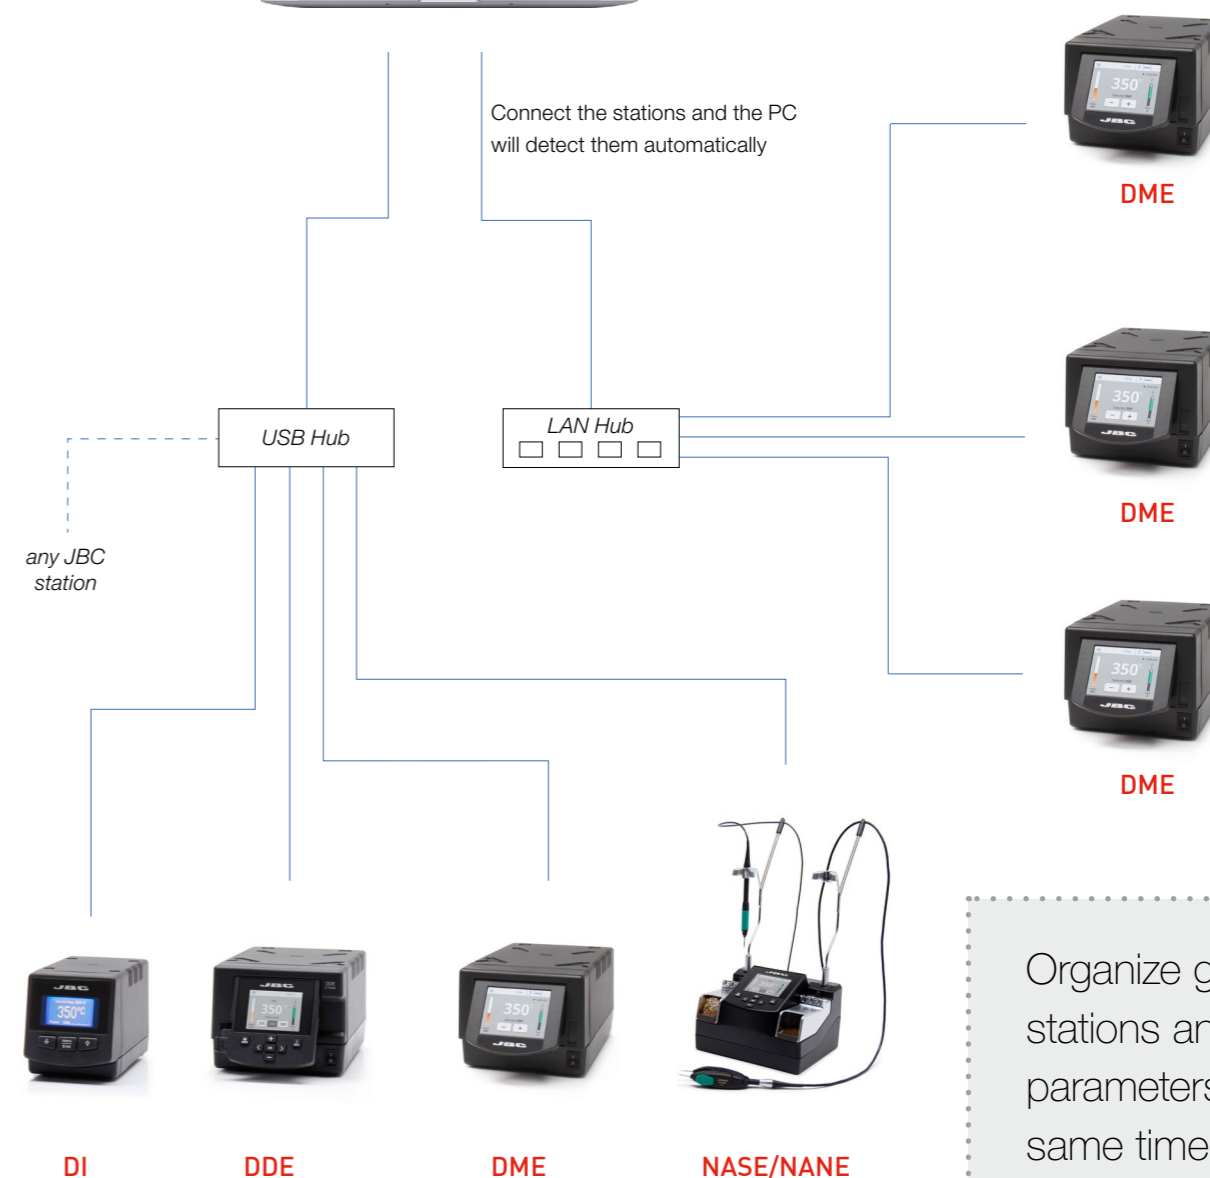

Configure and control all your company's JBC stations via PC

Download the JBC Manager software and the user manual from [www.jbctools.com/manager.html](http://www.jbctools.com/manager.html)

Connect the stations and the PC will detect them automatically

**JBC**

## JBC Net

your Soldering Net

Centralize the control of your work via USB

DME

DME

DME

Organize groups of stations and set all parameters at the same time

## New stations

Provide you with all the Excellence range features  
Compatible with all JBC Tools & Cartridges

### Work with 2 tools simultaneously

The station allows a simultaneous connection of 2 tools for soldering or desoldering.

For a basic working system you need 1 tool, 1 stand and 1 cartridge.

Each tool can be joined with **1 pedal** and **1 module** such as the MSE / MVE Desoldering Modules, the KNE Nitrogen Flow Regulator or the FSE Fume extractor.

The user can set **different tools** for each port, even without having to connect them.

### DDE · 2 Tools Control Unit

Ref. **DDE-1B** 120 V, **DDE-2B** 230 V, **DDE-9B** 100 V

**Software updating**  
Insert a USB flash drive  
with the station's latest version.  
Download it from [www.jbctools.com](http://www.jbctools.com)

### Specifications

Dimensions	173 x 282 x 141 mm	Output peak power	150W per tool
Weight	4,3 Kg (9,3 lb)	Temperature range	90 - 450 °C / 190 - 840 °F (±5%)
Idle temp. stability (still air)	±1.5 °C / ±3 °F	Tip to ground voltage	< 2 mV RMS
Ambient operating temp.	10 - 40 °C / 50 - 104 °F	Tip to ground resistance	< 2 ohms
Communication connectors	USB-A / USB-B / Peripherals	Robot connector	RJ12 (RS-232 Protocol)
Voltage	<b>DDE-1B</b> 120V 50/60Hz. Output: 23,5V <b>DDE-2B</b> 230V 50/60Hz. Output: 23,5V <b>DDE-9B</b> 100V 50/60Hz. Output: 23,5V	Fuse	Overload protection <b>DDE-1B</b> 120V 50/60Hz. Input fuse: 4A <b>DDE-2B</b> 230V 50/60Hz. Input fuse: 2A <b>DDE-9B</b> 100V 50/60Hz. Input fuse: 5A

### Compatible peripherals

Freely combine modules and pedals to get your complete and personalized set-up

### MSE-A · Electric Desoldering Module

### MVE-A · Pneumatic Desoldering Module

### MNE-A · Nitrogen Flow Regulator

### FSE-A · Fume Extractor Switch

### P-005 · Pedal

Peripherals adapted  
to work **only with**  
**Excellence stations**

## Excellence range

The ideal solution  
for intensive soldering  
jobs requiring  
prolonged and high  
thermal demands

### HDE · Heavy Duty station

Ref. **HDE-1B** 120 V, **HDE-2B** 230 V, **HDE-9B** 100 V

#### Composition

- HDE Control Unit
- HD-SD Stand
- T470-A General Purpose HD Handle
- CL6166 ESD Tip Cleaner

#### Specifications

Dimensions	145 x 120 x 225 mm	Output peak power	250 W
Weight	5,9 Kg (13,1 lb)	Temperature range	90 - 500 °C / 190 - 932 °F
Idle temp. stability (still air)	±1.5 °C / ±3 °F	Tip to ground voltage	< 2 mV RMS
Ambient operating temp.	10 - 40 °C / 50 - 104 °F	Tip to ground resistance	< 2 ohms
Communication connectors	USB-A / USB-B / Peripherals	Robot connector	RJ12 (RS-232 Protocol)
Voltage	<b>HDE-1B</b> 120V 50/60Hz. Output: 47V <b>HDE-2B</b> 230V 50/60Hz. Output: 47V <b>HDE-9B</b> 100V 50/60Hz. Output: 47V	Fuse	Overload protection <b>HDE-1B</b> 120V 50/60Hz. Input fuse: 4A <b>HDE-2B</b> 230V 50/60Hz. Input fuse: 2A <b>HDE-9B</b> 100V 50/60Hz. Input fuse: 4A

### NASE / NANE · Nano stations

Ref. **NASE-1B** 120 V, **NASE-2B** 230 V, **NASE-9B** 100 V

Ref. **NANE-1B** 120 V, **NANE-2B** 230 V, **NANE-9B** 100 V

The NANE stations are supplied with 2 Nano Purpose Handles

#### Specifications

Dimensions	170 x 90 x 135 mm	Output peak power	14 W per tool
Weight	1.8 Kg (4.0 lb)	Temperature range	90 - 450 °C / 190 - 840 °F
Idle temp. stability (still air)	±3 °C / ±5.5 °F	Tip to ground resistance	< 2 ohms
Ambient operating temp.	10 - 40 °C / 50 - 104 °F	Robot connector	RJ12 (RS-232 Protocol)
Communication connectors	USB-A / USB-B	Fuse	Overload protection <b>NAE-1B</b> 120V 50/60Hz. Input fuse: 0,5A <b>NAE-2B</b> 230V 50/60Hz. Input fuse: 0,2A <b>NAE-9B</b> 100V 50/60Hz. Input fuse: 0,5A
Voltage	<b>NAE-1B</b> 120V 50/60Hz. Output: 8.5V <b>NAE-2B</b> 230V 50/60Hz. Output: 8.5V <b>NAE-9B</b> 100V 50/60Hz. Output: 8.5V		

**JBC**  
www.jbctools.com

## Excellence range

For very small-sized  
components  
requiring the highest  
precision such as  
chips 0402, 0201,...

#### P-005 Pedal

Activate the hibernation mode with  
the pedal. This avoids thermal stress  
while placing the component on the  
PCB with the Nano Tweezers.

#### Cleaning and extraction set (x2)

It consists of a splashguard and  
an easy extractor, which facilitates  
single-handed cartridge change.

# Excellence

range

For soldering and desoldering all types of components, SMD, through-hole, pad cleaning,...

## DDSE / DDVE · Rework stations

Ref. **DDSE-1B** 120 V, **DDSE-2B** 230 V, **DDSE-9B** 100 V

Ref. **DDVE-1B** 120 V, **DDVE-2B** 230 V, **DDVE-9B** 100 V

### Composition

- DDE Control Unit
- AD-SD & DR-SD Stands
- T245-A General Purpose Handle
- DR560 Desoldering Iron
- CL6166 ESD Tip Cleaner
- MSE Electric Desoldering Module (only with DDSE stations)
- MVE Pneumatic Desoldering Module (only with DDVE stations)

### Specifications

Dimensions	See individual modules	Output peak power	150 W per tool

# Excellence

range

For any kind of rework job even using Hot Air with all the necessary complements

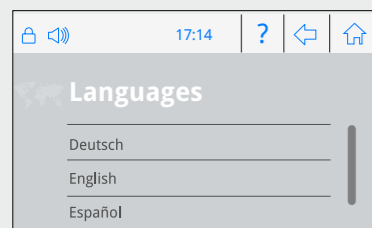

## Adjustable TFT Touch screen

3.5" color display facilitates the user interaction and has an adjustable screen for easy reading

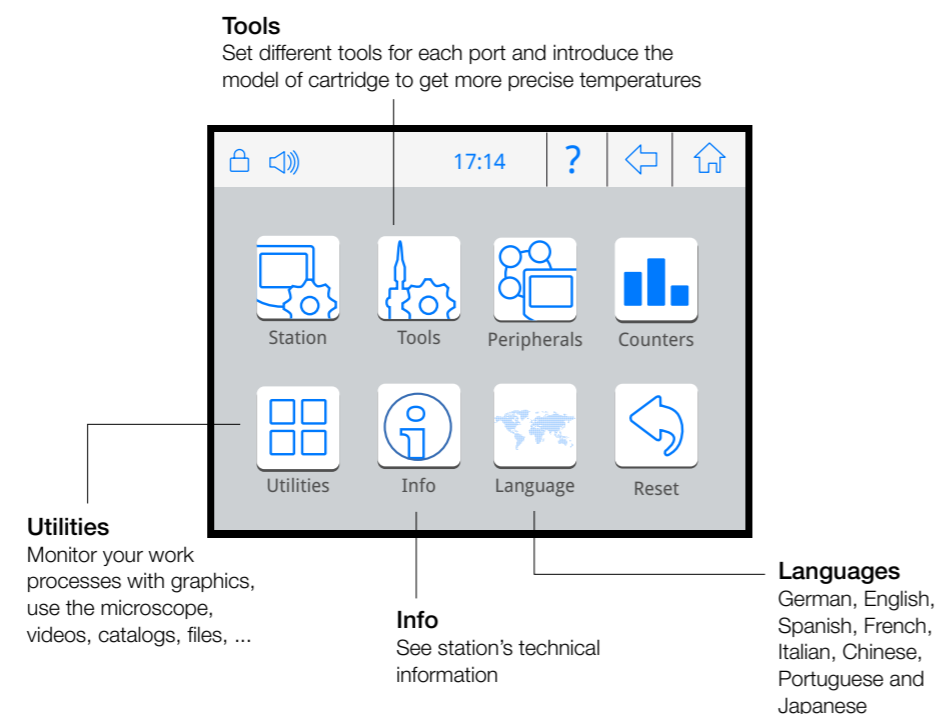

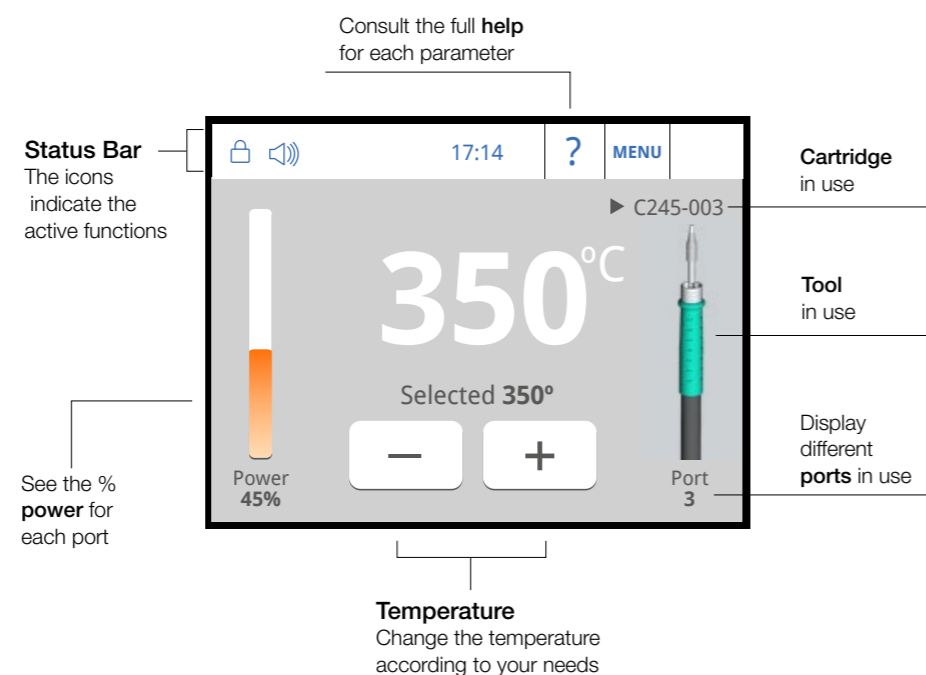

## Multi language

Adapt the station to the user with 8 languages to choose from

# Excellence Touch range

Discover additional features and applications that the "Touch" line offers

The station provides more precise on temperature readings according to the features of each cartridge

Insert the cartridge model and the station will recognize its characteristics (size and shape) to provide more accurate temperatures

Manage and monitor parameters of your JBC stations from your PC by means of a HUB with different LAN connections.

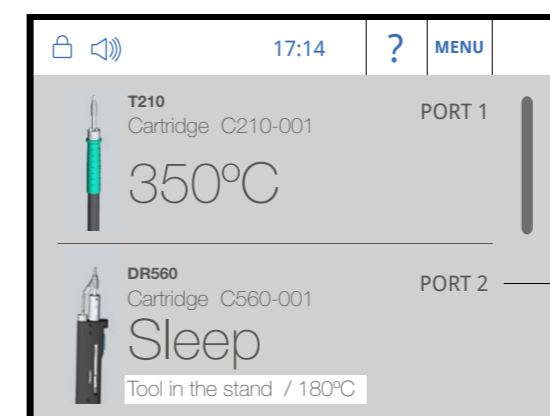

You can use our JBC Manager software, available on [www.jbctools.com](http://www.jbctools.com)

LAN connector

Also features a USB-B connector for smaller distances

You can display the status of all connected tools simultaneously

4 ports display, even those with no tool connected

## Cartridge Adjustment

The higher the temperature accuracy, the greater the soldering quality

## LAN connection

Manage stations from a greater distance

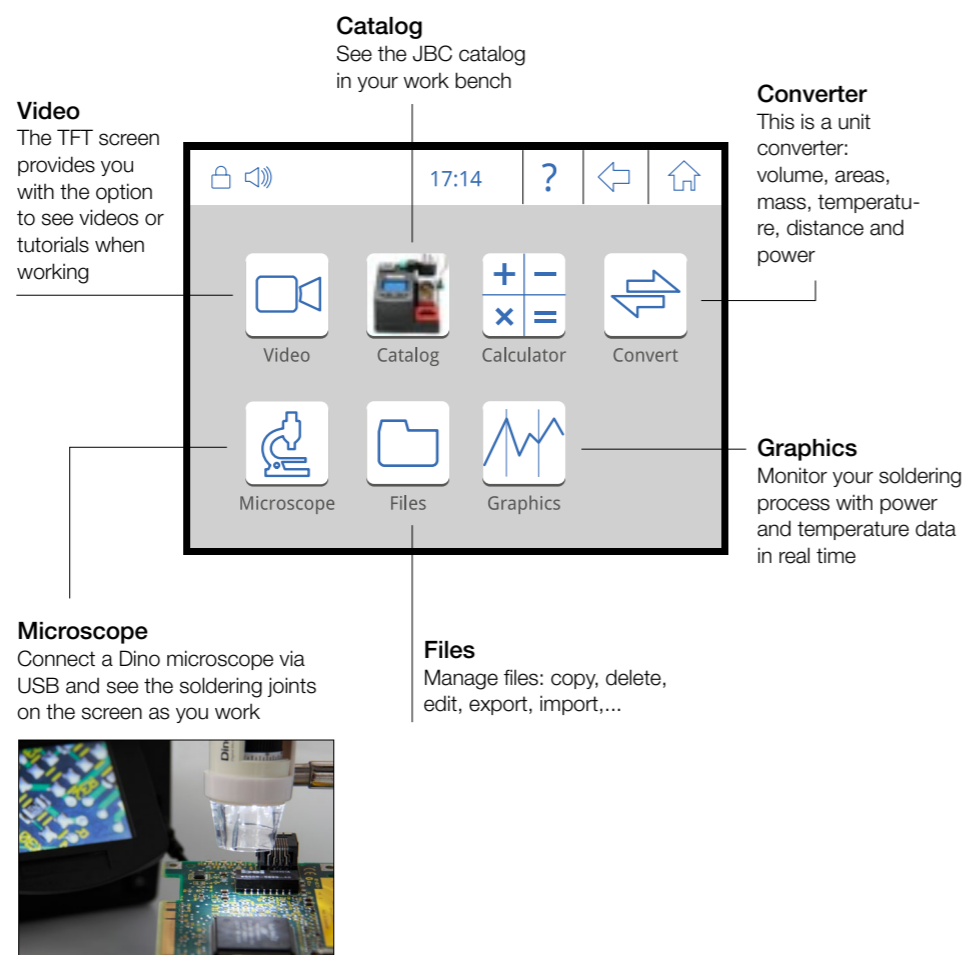

## Simultaneous control of ports

All tool status displayed on one screen

## Utilities

Multiple additional applications complement and support your work

## Your own soldering net

PSE stations allow you to create a personalized network according to your working lines

## Increase x6 your DME's possibilities

Work with up to 24 tools simultaneously

range

## Work with 4 tools simultaneously

The station allows a simultaneous connection of 4 tools for **soldering** or **desoldering**.

For a basic working system you need 1 tool, 1 stand and 1 cartridge. In addition, each tool can be joined with **1 pedal** and **1 module** such as the MSE / MVE Desoldering Modules, the KNE Nitrogen Flow Regulator or the FSE Fume Extractor.

## DME · 4 Tools Control Unit

Ref. **DME-1A** 120 V, **DME-2A** 230 V, **DME-9A** 100 V

### Specifications

Dimensions	173 x 282 x 141 mm	Output peak power	160W per tool
Weight	4,3 Kg (9,3 lb)	Temperature range	90 - 450 °C / 190 - 840 °F
Idle temp. stability (still air)	±1.5 °C / ±3 °F	Tip to ground voltage	< 2 mV RMS
Ambient operating temp.	10 - 40 °C / 50 - 104 °F	Tip to ground resistance	< 2 ohms
Communication connectors	USB-A / USB-B / LAN / Peripherals	Robot connector	RJ12 (RS-232 Protocol)
Voltage	<b>DME-1A</b> 120V 50/60Hz. Output: 23,5V <b>DME-2A</b> 230V 50/60Hz. Output: 23,5V <b>DME-9A</b> 100V 50/60Hz. Output: 23,5V	Fuse	Overload protection <b>DME-1A</b> 120V 50/60Hz. Input fuse: 6A <b>DME-2A</b> 230V 50/60Hz. Input fuse: 3.15A <b>DME-9A</b> 100V 50/60Hz. Input fuse: 8A

## PSE · Power Supply 4 Tools Control Unit

Ref. **PSE-1A** 120 V, **PSE-2A** 230 V, **PSE-9A** 100 V

## It works with DME stations

The station, which is connected and controlled by a DME station, allows simultaneous connection of 4 tools for **soldering** or **desoldering**.

For a basic working system you need 1 tool, 1 stand and 1 cartridge.

In addition, each tool can be joined with **1 pedal** and **1 module** such as the MSE / MVE Desoldering Modules, the KNE Nitrogen Flow Regulator or the FSE Fume Extractor.

Infrared is the most  
**advanced, efficient**  
and **cost-effective**  
technology to  
preheat PCBs.

**Reduces  
risk of thermal  
stress**

# Turn your equipment into a complete solution

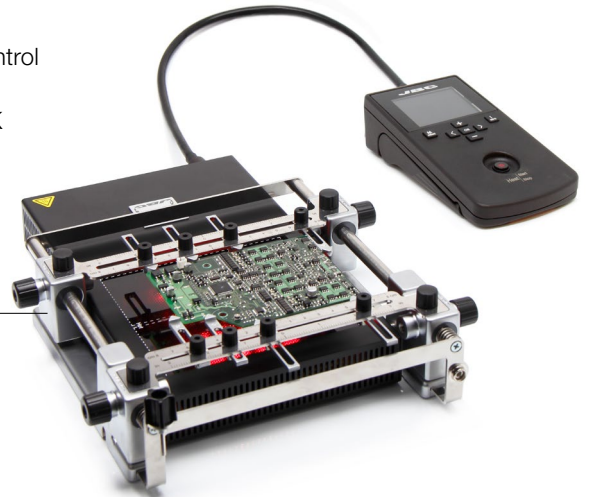

## PHSE-K · IR Preheater Set

Ref. **PHSE-1KA** 120 V, **PHSE-2KA** 230 V, **PHSE-9KA** 100 V

### Composition

- PHS Heater Unit
- PHS Console for process control
- PHS-SA PCB Support
- PH218 Thermocouple Type K
- PH217 Kapton tape

Versatile and adjustable  
support to suit any size and  
shape of PCB

Automatic tip cleaners improve thermal transfer in only **1 second**

### Junior Tip Cleaner
